Assignment 2 (HTML&CSS)

Add to your website the following

1) Registration Form as shown

Page 4 (Registration Page)

The image shows a web browser window with a single tab titled "Application". The address bar displays the file path "file:///C:/Users/sd-niveen/Desl". The browser's toolbar includes a search bar, star icon, document icon, checkmark icon, download arrow, and navigation arrows. The main content area features a registration form with a light red background and a dark red border. The form contains the following fields and controls:

- First Name: Text input field
- Last Name: Text input field
- Password: Text input field
- Gender: Radio buttons for "Male" and "Female"
- Birthday: A dropdown menu labeled "[Select a Month]" followed by "dd" and "yyyy" text input fields
- Interests: A section header followed by six checkboxes for "Sports", "Music", "Books", "Computer Stuff", "Fashion", and "Movies"
- Submit: A button at the bottom of the form

2) Login Form as shown

Page 5 (Login Page)

The screenshot shows a web browser window with a single tab titled 'LogIn Form'. The address bar displays 'file:///C:/Users/sd-niveen/Desl'. The browser's toolbar includes a search bar and various navigation icons. The main content area has a light pink background. Centered on the page is a white login form with a red 'Log In' title. The form contains the following elements: a 'User Name:' label followed by a text input field with the placeholder 'Enter your User name here!'; a 'PassWord:' label followed by a text input field; a 'Select Your Location:' label followed by a dropdown menu currently showing 'Egypt'; a checkbox labeled 'RememberMe'; and a 'Log In' button. The dropdown menu is open, showing a list of countries categorized by continent: **Africa** (Egypt, Sudan, Namibia), **Europe** (France, Russia, UK), and **North America** (Canada, Mexico, USA). 'Egypt' is highlighted in blue in the dropdown list.

3) let your website redirect to registration form after 5 seconds from home page (page1)

4) let your website goes to login form when user click enter image in home page (page1)

5) let login button of login form send data to main page of your website(page2) and display it

6) let submit button of registration form send data to welcoming page that will redirect automatically to entertainment page of your website (page3)

7) Apply your own style for the website
